SUMMARY

Frontend Engineer with 2.5 years of experience building enterprise-scale web applications. Proficient in React.js, TypeScript, Redux Toolkit, and performance optimisation, with a strong track record of delivering reliable, production-grade applications. Passionate about building fast, clean, and user-centric digital experiences.

SKILLS

- **Frontend Ecosystem:** React.js, Redux Toolkit, React Hooks, TypeScript, JavaScript (ES6+)
- **Performance & Testing:** Vite, Jest, React Testing Library, Webpack, Browser Debugging, Cross-Browser Compatibility
- **UI & Design:** HTML5, CSS3, Tailwind CSS, CSS Modules, SASS/SCSS (familiar), Responsive Design, Mobile-First, UI/UX Implementation, Accessibility Basics, Component-Driven Architecture
- **Backend & DB:** Node.js, DSA, Express.js, REST API Design, MongoDB (schema design), Java, Spring Boot, JWT Auth, Firebase Firestore
- **Cloud & Tools:** AWS EC2, Nginx, GCP, Firebase (Auth/Hosting/Functions), Vercel, Git, GitHub, ESLint, Postman, JIRA, Agile/Scrum, CI/CD (familiar)
- **AI & Emerging:** Google Gemini API, Prompt Engineering, RAG Architecture, LLM API Integration, AWS AI Services (In Progress)

EMPLOYMENT

Associate Software Engineer, **Carelon Global Solutions / Deloitte LLP**

Aug 2023 – Nov 2025

React.js · TypeScript · Java · Spring Boot · ServiceNow · Mission-Critical Healthcare Applications · Agile/Scrum

- **Improved React SPA** performance by refactoring Spring Boot microservices, reducing API latency by 20% for a Fortune 500 US healthcare client.
- **Enforced Jest coverage, TypeScript strict-mode, and PR review standards** - resulting in zero post-deploy regressions and 99.9% uptime across multiple sprint cycles.
- **Reduced production incident resolution time by ~30%** by introducing structured debugging and root cause analysis protocols across the frontend and backend stack.
- **Automated an IT service request workflow using ServiceNow APIs** - eliminated manual steps, ensured SLA compliance, and freed engineering capacity for feature work.

TECHNICAL PROJECTS

- **Flixmind — AI Movie Discovery App** <https://flixmind-auth.web.app/>
React.js · JavaScript (ES6+) · TypeScript · Redux Toolkit · Webpack · Jest · Firebase Gen 2 · Google Gemini API · GCP · Tailwind CSS
Production React SPA with live Gemini LLM recommendation engine. Eliminated all re-renders (React.memo / useMemo / useCallback). Configured Webpack for code splitting and bundle size reduction. Secured all AI API traffic behind Firebase Cloud Functions proxy — zero client-side key exposure. Responsive across all browsers and devices. Deployed on GCP.
- **DevTinder — Developer Networking Platform** <http://3.26.43.77/>
React.js · TypeScript · Node.js · Express.js · MongoDB · Redux Toolkit · JWT · AWS EC2 · REST APIs
Full-stack SPA with complex connection workflows (Interested / Ignored / Accepted / Rejected) and optimistic Redux state updates for snappy UX. Node.js/Express REST API with JWT auth. Scalable MongoDB schemas engineered for high-frequency concurrent writes. Both frontend and backend deployed independently on AWS EC2 Linux — browser-tested across Chrome, Firefox, Safari.
- **Vutube — YouTube Clone** <https://github.com/Anuj27aKamboj/vutube>
React.js · JavaScript · Redux Toolkit · React Router · Tailwind CSS · REST APIs · Responsive Design
High-performance video SPA with infinite scroll and dynamic content loading — ~60% lighter initial page weight vs. pagination. Fully modular component library with zero duplicated UI logic across nested comments, sidebars, and video cards. Built with long-term maintainability as the primary constraint.

EDUCATION

Lovely Professional University

Aug 2019 – Jun 2023

Bachelor of Technology, **Major:** Computer Science and Engineering

ADDITIONAL EXPERIENCE & CERTIFICATIONS

- **AWS Certified AI Practitioner** (In Progress)- deepening expertise in cloud-native AI services, RAG architectures, and MLOps.
- **German Language** — A2 Level (completed during B.Tech, Lovely Professional University)
